

# Group meeting for Group 15, Panic on TDAncefloor

Date: 2017-04-27

Chair: Gustav Lahti

Participants: Gustav Lahti, Magnus Wamby, Rikard Teodorsson, Farzad Besharati

1. Objectives (5 min). Resolve any issues preventing the team to continue.

- Establish proper workflow

2. Reports (15 min) from previous meeting

- Gustav has problems with “world” causing errors when instantiated in PhysicsActor’s test
- Magnus has started working on an Actor-factory
- Rikard has continued working on controls
- Farzad has been busy with the Cortège and unsure what he could be working on

3. Discussion items (35 min)

- Gustav will push his current (not working) code onto a remote branch
- InputController unnecessary
- Proposal of splitting up Model, View, and Controller into different branches
  - Not relevant at the moment
- We need to start working on the SDD
- Eventbus should be added, possibly GreenRobot’s EventBus  
(<http://greenrobot.org/eventbus/>)

4. Outcomes and assignments (5 min)

- Gustav will upload current version of not working code to a remote branch and continue trying to make it work
- Magnus will help trying to make PhysicsActor’s test work
- Rikard will start working on views
- Farzad will look into Scene2D

5. Wrap up

- We need to work on SDD and implementing an event bus in the future
- Next meeting will be 2017-05-02 at 12:15 in M1203A
